

Outsourced Finance Services

For many start up, early stage and smaller businesses, outsourcing your finance function can save your business considerable time, cost and provide a value adding resource for your business.

Rubycom's outsourced finance function is part time and flexible depending on your needs. This can be carried out remotely or at your premises, is carried out by experienced skilled resource, and can be done for fixed monthly fees starting from £250 plus vat per month.

As XERO certified advisors, Rubycom are well placed to automate and drive efficiencies within your business through an outsourced finance function. Rubycom clients who already use this service have seen dramatic improvements in the quality of data available to run the business and significantly reduced costs.

Outsourced finance services provided by Rubycom includes:

- Set up of accounting software
- Transactional support
- Payroll
- VAT returns & HMRC compliance
- Management reporting including management accounts
- Input into your business with data interpretation
- Cash flow forecasting
- Key data relevant for your business

Benefits to your business of outsourcing your finance function to Rubycom include:

COST: this can dramatically save your company money, and move your finance function from a fixed to variable cost in your company;

FLEXIBILITY: how much time you need your finance resource for becomes flexible and can change month to month as needs change;

SKILLS, EXPERTISE & EXPERIENCE: you can get a very experienced, skilled, management accountant, with the right experience to work with you to drive your business forward.
